Kroc & Krocodilos Aquatics

Ages 6 months–3 years • \$45

These classes are designed to familiarize infants/toddlers (and their adult guardian) to water activities, and to prepare them to progress into the Krockies Aquatics and Krocodilos programs.

Classes are not designed to teach children to survive in the water on their own.

Krocodilos Aquatics

Ages 4–16 years • \$57

There are six levels in the Krocodilos Aquatics Program. Each level of this program includes the teaching and assessment of progressive swimming and water safety skills. Students are moved through the progressive levels as they accomplish the skills required at each level. (A student may remain at the same level for multiple sessions as they master the skills.) The lessons are taught in small groups, by Certified American Red Cross Instructors and Aides. Our instructors make swimming lessons exciting, and help students develop both essential swimming skills and self-confidence while they are in the water.
